THE BEAUTY OF THE GREEN

Stepping outside to the beautifully landscaped terrace of Opera restaurant, you will be allured by the **aromatic scent** coming from **an organic herb garden** where we have started to grow our own green ingredients. This small yet beautiful garden has **a collection of 12 different Mediterranean herbs**, from Rosemary, Thyme, Sweet Basil, Oregano, Sage, Peppermint, Spearmint, Mojito Mint, Chocolate Mint, Coriander, Dill to Garlic Chive.

Our **farm-to-table** approach originates from a passion to bring you the freshest, local ingredients from an organic garden within the premises of Park Hyatt Saigon straight to your plate.

As the herbs have grown beautifully and abundantly, the garden has become another source for supplying fresh herbs right at the doorstep not only for the Opera restaurant but also for the Xuan Spa. Fresh peppermint and rosemary handpicked from the garden are the perfect enhancement for the spa's natural aroma with their richness in essential oil.

This outdoor garden creates a space for mindful moments and reconnect one to **the beauty of nature** while living in a bustling city like Saigon.

On your next visit to Opera, ask our team about the herb garden and we will be happy to show you the beauty of the green.
