ART JOURNEY AT THE PARK

Embracing one of the four main pillars of the Park Hyatt brand – **Art and Craftmanship**, Park Hyatt Saigon is home to a critically acclaimed **collection of Vietnamese artworks**.

Take a moment to discover the artistry and brilliance in the collection of paintings enhancing the beauty of the hotel's contemporary interior. We invite our guests to immerse themselves in a world of creativity and feel inspired by the surroundings. With this carefully curated collection, we are expressing our passion for the arts beyond the walls of our hotel, while sharing the proud **Park Hyatt legacy of art excellence**.

OUR STORY

At Park Hyatt Saigon, no details are overlooked, especially the flowers that accompany the hotel's interior design. Blending the timeless beauty of French colonial elegance with the charm of Vietnamese heritage, our **visually appealing floral installation** introduces guests to the glamour world of The Park, where every journey is embellished in an exceptional way.

From the lobby centrepieces, room décor to restaurant and event displays, it is important that each flower represents the brand identity and diffuses its sweet fragrance **for a signature sense** that enchants guests on every visit. Making this all a sparkling reality, Park Hyatt Saigon collaborates with **Alfie Lin**. Due to his unique sense of aesthetics and ideals, he has been lauded as a “**Master of New Oriental Floral Design Aesthetics**”. With ingenious creativity, Alfie and his team integrates the aesthetic elegance of European floral design with the spiritual sense of Vietnamese culture to highlight all distinguished features of The Park.

Our onsite magical Florist team, on the other hand, make a huge contribution in taking care of every floral arrangement to create **wonderful guest experiences**. Impressed by the visual language of flowers, Minh has been devoting 10 years at The Park as a florist. His morning starts by checking and maintaining all the displays to make sure every flower shines flawlessly. “Flowers are among the signature features that makes Park Hyatt Saigon **an iconic hotel**. Seeing guests impressed by our floral arrangements when walking into the lobby rekindles my passion and makes my Park journey more memorable.” – shared Minh.

BLACK FRAGRANT DIAMONDS OF THE GASTRONOMY

Nestled among the roots of the orchards in Australia, safe in the cool, fertile earth **black truffles** grow – slowly, delicately, fold upon fold. Until the mother nature sends an aromatic message to the hunter above, the moment has arrived to unearth the sublime.

While white truffles are smooth, musky, and pungent, typically found in Italy, southern France, and Croatia, black truffles are more subtle, nutty, earthy flavor, and usually found in Australia. **The Australian black truffle** is a delicacy in the kitchen because of its capability to transform any dish into an **exquisite jewel**. Thus, explains, they designate it ‘**the diamond of the gastronomy**’.

Discover how Australian black truffle brings a new level of decadence to dishes by joining in an indulgent culinary journey at **Opera and Square One restaurant** exclusively this July.
